*Collaboration that can make a difference*

# ERSD SEPAC

EAST RUTHERFORD SCHOOL  
DISTRICT SPECIAL EDUCATION  
ADVISORY COMMITTEE

Families and educators collaborating in support of students with disabilities

## *Your Voice, Matters*

Our community-based SEPAC provides direct input to school district leaders about policies, programs, practices, and services that impact students with disabilities and their families.

The collective voice and varied perspectives of SEPAC members is comprised of:- families, Board of Education, faculty, Child Study Team members, students and former students.

SEPAC provides opportunities to establish shared goals and priorities that benefit students with disabilities. Through shared perspectives and input, we help shape local special education programs and policies.

We also offer opportunities for families and their school district to support, inform, and learn from one another. This partnership fosters feedback, reflection and idea sharing to develop the right-fit solutions for every aspect of school life for our children - from supports and processes to solutions.

## **SEPAC Benefits:**

- Identify and advise of unmet needs and solutions for children receiving special education and services;
- Common mission collaboration to improve outcomes and overall well-being for students;
- Enhanced communication between families, the district team, and the community;
- A trusted source of information for support and resources; and
- Valuable input that creates awareness about establishing priorities and the effective allocation of resources.

## *One Focus*

The SEPAC community creates a solid foundation comprised of well blended educational training and support. This foundation is critical to ensuring a student's success through adulthood.

Our collaborative approach focuses on identifying the right path for each student.
