

5th GRADE ORIENTATION

Fourth Grade Families: In lieu of the traditional 5th grade orientation we offer to fourth grade students during this time of year at Faust, we put together a virtual one using Flipgrid. It is an interactive platform so please encourage your children to engage and participate in all 8 topics! We want to provide them with information regarding 5th grade offerings, give them the ability to ask questions that are on their minds and ease some of the angst that may be looming about middle school. Kindly find the virtual 5th grade orientation link below:
