April 15, 2021

Dear Parents/Guardians & School Community Members,

The East Rutherford School District will begin its groundbreaking portion of Phase IV, during the week of Monday, April 19th of its new 4th & 5th Grade Building. Construction vehicles will be on the Faust School campus as it begins all ground preparations.

Please continue to visit the district website at www.erboe.net and click on the Expansion & Capital Projects tab for all construction project photos of both Faust School and McKenzie School campuses. The District will be rolling out updates on its new phases of the projects throughout the entire process.

As mentioned in my previous communication, as of June 1st, the East Rutherford School District will also begin the renovation of its McKenzie School Gym Floor. Contractors will begin the staging and preconstruction set up while students and staff are in session. Full construction will commence on June 18th. Traffic pattern updates will be shared with our school community prior to June 1st.

As always, the East Rutherford School District always appreciates community concerns and will continue to adhere to any reasonable precautionary measures while keeping the school community updated on its renovation and construction projects.

Sincerely,

Giovanni A. Giancaspro

Superintendent of Schools
