August 9, 2021

To Parent Teacher & Employee Organizations:

The East Rutherford Board of Education has contracted with EnviroVision Consultants Inc. to act as their “Designated Person” as defined under the Asbestos Hazard Emergency Response Act (AHERA) of 1986. AHERA required that all educational facilities be inspected for asbestos – containing materials and develop a remedial plan of action on or before May 9, 1989. In addition, each educational facility shall reassess all identified asbestos – containing materials or materials assumed to be asbestos, at least once every six months (periodic surveillance) and re-inspect those facilities every three years (Tri-annual re-inspection).

The East Rutherford Board of Education is in compliance with these requirements. The most recent Tri-Annual re-inspection was performed in October 2020. “Periodic Surveillance inspections are performed every April and October. The last “periodic surveillance” inspection was performed in April of 2021, with the next one scheduled for October 2021.

Following each inspection, appropriate remedial actions are recommended to the Board of Education by an accredited Asbestos Management Planner. The remedial plans of action and recommended schedules for implementation (Asbestos Management Plans) are available for review at the East Rutherford Administrative Office, as well as in each school office.

This past year various asbestos abatement efforts were undertaken at the Alfred S. Faust School due to extensive renovations. These abatements were performed in accordance with all State and Federal rules, regulations, and guidelines. The details of the projects can be viewed at the Board of Education Offices.

We will continue to keep you informed of our AHERA compliance.

Respectfully Yours,

*Cathy DiNardo*

Designated Person on behalf  
of the East Rutherford Board of Education
